Senior Product Designer

Award-winning and results-oriented Designer with 7+ years of experience and a Master's degree in User Experience Design, complemented by an engineering background. Specialises in crafting scalable, accessible solutions across SaaS, E-commerce, Fintech, Edu-Tech, Retail, and Healthcare sectors. Delivered a 30% uplift in product engagement and a 20% improvement in user satisfaction through iterative, data-driven design. Skilled in interaction design, system thinking, behaviour-driven UX, design strategy, and cross-functional team leadership, with hands-on experience in design systems, behavioural analytics, and no-code platforms. Proven ability to lead product direction from concept to execution, communicate design decisions through compelling storytelling, and create experiences that drive meaningful user outcomes, balancing business goals with inclusive, user-first principles in agile, collaborative teams.

Work Experience

Senior Product Designer • Freelance

📍 London, UK

November 2023 - Present

- Led end-to-end design and delivery of user-centred products for 10+ clients using Figma and no-code tools like Framer, resulting in a 40–60% boost in conversion rates. Collaborated with stakeholders to align UX with business objectives, integrated CMS to streamline content workflows, and developed design systems for consistency and scalability. Leveraged AI tools, user research, and Google Analytics to continuously refine and optimise solutions.

Design and Marketing Intern • Togada Studio

📍 London, UK

May 2024 - June 2024 • Part-time

- Designed digital assets and marketing materials while developing 5+ outreach and lead generation strategies tailored to different studio operations, enhancing client acquisition and brand visibility.
- Applied UX and web design principles to improve website usability and accessibility (WCAG compliance), resulting in increased user engagement and a stronger digital presence for the studio.

Student Ambassador • Kingston University

📍 London, UK

November 2023 - December 2024 • Part-time

- Represented the university at open days, education fairs, and outreach events, engaging with 1,000+ prospective students and parents to provide tailored academic advice and campus insights, while supporting marketing and administrative initiatives across departments.
- Strengthened communication, empathy, and leadership skills by mentoring diverse student groups and collaborating with faculty and staff to deliver impactful experiences—building a solid foundation for user advocacy in design.

UI/UX Designer • Cisco Systems Inc.

📍 Bengaluru, IND

July 2022 - September 2023

- Spearheaded the design of key digital assets for Cisco Spaces—an IoT-based SaaS platform—including landing pages, dashboards, mobile and signage apps, email templates, and a scalable design system; efforts contributed to a 25% increase in user engagement and significantly refined navigation.
- Collaborated with Activation, Adoption, GTM, and Growth teams to produce cohesive marketing materials, event presentations, and animations that reinforced brand identity and a major rebranding effort, helping boost event participation by 15%.
- Leveraged tools like Hotjar, Pendo Guides, and HubSpot to gather user behaviour insights and inform data-driven design decisions across the app, dashboard, and activation workflows—enhancing user satisfaction and adoption. Rapidly adopted no-code platforms such as Unbounce and Elementor, alongside AI tools, to accelerate prototyping and empower marketing teams with flexible, scalable design solutions.

UI/UX Designer • Evince Development Pvt. Ltd.

📍 Ahmedabad, IND

October 2020 - July 2022

- Led 0→1 design and front-end development for the UK's first device repair comparison platform, serving 10,000+ users and 500+ repair partners. Delivered a seamless booking experience by combining user research, wireframing, UI design, and micro-interactions into a unified, scalable B2B and B2C portal.
- Improved user engagement and task completion by 40% by leveraging behavioural analytics and user feedback to optimise navigation, reduce cognitive load, and streamline the repair booking flow—earning positive feedback from the overseas client for clarity and efficiency.
- Mentored junior designers and facilitated internal design workshops, strengthening team collaboration across projects. Actively helped peers with client communications, scope definition, and design reviews—enhancing overall design quality and cross-functional alignment within the agency.

Visual Designer • Dev Information Technology Ltd.

📍 Ahmedabad, IND

September 2019 - October 2020

- Created a diverse range of marketing assets—including brand guidelines, social media creatives, and print materials—that aided key campaigns and boosted brand consistency across platforms, while reducing asset revision cycles by 30% through clearer rationale and stakeholder alignment.
- Partnered closely with the Creative Director and Digital Marketing Managers to streamline asset delivery pipelines, improving approval turnaround times by 40% and helping accelerate campaign launches with high-quality, on-brand visual content.

UX Designer • Promact Infotech Pvt. Ltd.

📍 Vadodara, IND

January 2018 - August 2019

- Contributed to the design and development of a B2B Edu-Tech SaaS platform for online assessments, collaborating with product managers and developers in an Agile setup. Led wireframing, information architecture, and usability improvements while learning the foundations of accessible and scalable design.
- Participated in user research sessions and design reviews to inform UX decisions, helping refine user flows and interface components for a smoother onboarding experience and enhanced task clarity for educators and administrators.
- Designed marketing and brand assets including logos, banners, mock-ups, and animations to support product launch campaigns—building cross-disciplinary skills in visual storytelling, branding, and multi-format content creation.

Projects

InCent - Empowering financial wellness Nominee: The UX Design Awards by IDZ 	Fin-Tech
- Designed an AI-driven fintech app to help users better understand financial concepts and manage their money more effectively. - Led end-to-end UX—from user research to UI design, usability testing, and motion design—resulting in an app that enables users to manage their finances and build healthier financial habits.	
Habitude - tune into your true power Read Case Study 	Lifestyle Healthcare
Designed an app that amplifies productivity and simplifies habit-building using gamification and AI. Applied the Stanford design process and UX principles like commitment psychology and progressive disclosure to enhance user engagement. Conducted user research and usability testing with 10 participants, achieving a 80% user satisfaction score.	
Plotter	EdTech Service Design
Developed an AI-powered career consultancy platform that helps users discover career paths aligned with their unique skills, interests, and aspirations, including emerging and less-known fields. Applied Lean UX methods for this Service design project with 3 iterative design cycles, conducting user research and usability testing with 12 participants. Achieved an 88% task completion rate.	

Education
